Business critical Push-to-talk and collaboration

Administration of User Categories

A *User Category* is a central concept in GroupTalk, that provides the same type of Users with a specific set of resources, such as PTT groups, private call, panic alarm, etc.

The administration of *User Categories* in GroupTalk web admin has been updated to facilitate configuring the growing number of GroupTalk features and services.

The picture below illustrates how the administration of a User Category can look like.

User category	...can receive private call from Dispatcher	...can start private call to Dispatcher	...can receive messaging from Dispatcher	...can start messaging with Dispatcher	...can share location with Dispatcher	...can view location of Dispatcher
Dispatcher	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
East District Guards	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
East District Team Leaders	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
West District Guards	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
West District Team Leaders	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

CANCEL UPDATE

Read the User categories in the Left column in association with the Features listed horizontally. Activate the required GroupTalk features by selecting the corresponding checkbox.

Example: Users in the **East district Guards** User Category can;

- **receive private call** from Dispatcher
- **start private call** to Dispatcher
- **receive messaging** from Dispatcher
- **share location** with Dispatcher

Note that User Categories with the right to “Start messaging” can initiate and lock/unlock a conversation. User Categories with the right to **only** “Receive messaging”, can reply, but not start or lock/unlock a conversation.

If more information is needed you may contact your GroupTalk representative or support@grouptalk.com.
